

ThinkPad T15 Gen 2

This lightweight laptop is designed for business professionals who often travel for work. The expansive 15.6" display affords a comfortable view, while MIL-SPEC tested durability and a 15-hour battery make it ideal for mobile use. Modern Standby allows the device to receive updates even with the lid closed and wake almost instantly when needed. Security features include an optional IR camera with a physical shutter, onboard fingerprint reader and data encryption technologies to protect sensitive business information.

Redefining possibilities with powerful performance and groundbreaking on-device AI

ThinkPad T series laptops offer professional-grade durability, powerful performance with good processors, ample memory, and fast SSD storage. They feature robust security features and long battery life for productivity on-the-go.

Under the hood, it packs in the latest 10th Gen Intel® Core™ processors and up to 2TB SSD storage for fast and responsive performance. Modern connectivity ports such as USB-C and ThunderBolt™3 enable high-speed data transfers and help connect to essential peripherals.

Mobile workers often struggle with weak WiFi networks when working from the field. The optional 4G WWAN module in the device uses cellular network to provide reliable data connectivity from anywhere.

Available in multiple configuration options, this laptop combines powerful performance with the latest features like WiFi 6 technology and Modern Standby

ThinkPad T15 Gen 2
