

ThinkPad L15 Gen 2 (AMD)

Although mid-range, this business laptop comes with built-in biometric security and other modern features that help users stay productive from anywhere. It is powered by the new AMD Ryzen 5000 PRO series processors with up to 8 cores for fluid performance when multitasking. The expansive 15.6" anti-glare display, with an ultra-narrow border, is great for creating or viewing content. Integrated ThinkShield features plus AMD security provides layers of defenses against even sophisticated security threats.

Redefining possibilities with powerful performance and groundbreaking on-device AI

ThinkPad L series laptops offer reliable performance and durability for modern professionals with powerful processors, robust security features, long battery life, and versatile connectivity options, ensuring productivity on-the-go.

Mobile users will appreciate the 10.6-hour battery that can optionally be charged to 80% capacity in just one hour. There are 2x USB-C ports for quick transfer of videos, design files and large data sets, and to connect essential peripherals like an external monitor.

When working remotely, a weak WiFi signal can throttle productivity. The optional 4G WWAN module in the device uses a cellular network to provide reliable data connectivity from anywhere.

Fast and responsive performance with the new AMD Ryzen 5000 PRO series processors, ultra-fast PCIe SSD storage and AMD Radeon graphics.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Accessories

Lenovo Powered USB-C Travel Hub

- Connects to a PC through a single USB-C cable which also recharges the device
- Connect to an external display with HDMI or VGA, and other peripherals with 2x USB ports
- Compact 183x100mm (7.2x4") design with integrated cable management
