

ThinkPad X13 Gen 2 (Intel)

As more and more of your workforce is required to work flexibly, there's a need for devices that balance performance and portability with reliable security features. Although small in size, this 13" ultraportable packs quite the punch. It features the latest Intel processors, ultra-fast SSD storage and modern features that facilitate seamless multitasking and collaboration. There's up to WiFi 6E and optional 4G/5G WWAN connectivity that can enable faster internet speeds, regardless of the work environment.

Redefining possibilities with powerful performance and groundbreaking on-device AI

ThinkPad X series laptops offer portability and power for modern professionals. With lightweight designs, robust performance from their processors, long battery life, and security features, they are ideal for on-the-go productivity.

Modern connectivity ports such as USB-C, Thunderbolt 4 and optional NFC help transfer data quickly and connect essential peripherals. The device can also be configured to suit the needs of different workers – choose between a wide range of processor, memory, storage and display options.

Prioritizes privacy and security with features like optional PrivacyGuard technology that protects on-screen data from prying eyes, TPM chip for data encryption, stronger user authentication technologies, and a webcam privacy cover.

Enjoy seamless web conferencing with an integrated 720p HD webcam, Dolby Audio speaker system and dual-array far-field microphones. Also comes with a physical webcam cover to protect user privacy.

Lenovo Services
